1. Organisation Overview:

1.1 Name: Tshiawelo Primary School

1.2 History of the organisation.

Tshiawelo Primary School is a public, no-fee primary school located in Tshitungulwane Village, Vuwani, within the Vhembe East District of Limpopo Province. The school serves learners from the local rural community and provides quality education from Grade R to Grade 7 in a safe, supportive, and inclusive learning environment.

The school is committed to promoting academic excellence, discipline, personal development, and lifelong learning among its learners. According to publicly available information, the school is classified as a Quintile 2 public school and falls under the Department of Basic Education (Department of Basic Education, 2025).

The proposed website is intended to provide parents, learners, teachers, and the community members with convenient access to important school information. It will also improve communication by providing information about academics, school activities, enquiries, contact details and the school's locations.

1.3 Proposed Mission statement.

- To provide a safe, inclusive, and supportive learning environment that empowers every learner to achieve academic excellence while developing confidence, responsibility, and respect for others.

1.4 Proposed Vision Statement.

- To become a leading primary school that prepares learners with the knowledge, skills, and values needed to succeed in secondary education and contribute positively to society.

1.5 Target Audience.

The website is designed for:

- Parents and guardians
- Current learners
- Teachers and support staff
- Members of the local community

- Prospective learners and parents

2. Website Goals and Objectives:

2.1 Goals

The main goals of the Tshiawelo Primary School website are to:

- Improve communication between the school, parents, learners and community.
- Provide easy access to information about the school.
- Provide information about academic grades and subjects.
- Showcase school activities, achievements, and memorable events.
- Provide an enquiry form for questions and requests.
- Provide contact information and school location.
- Improves the school's online presence.

2.2 Key performance indicators (KPIs).

The effectiveness of the website can be evaluated using the following indicators:

- Increase the number of visitors accessing school information online.
- Increase the number of enquiries submitted through the website.
- Reduce the need for parents and community members to rely only on telephone enquiries.
- Increase awareness of the school's academic activities and achievements.
- Improve access to the school's contact and location information.

3. Current Website Analysis:

- Tshiawelo Primary School does not appear to have a comprehensive official website, based on publicly available information reviewed. This can make it difficult for parents, guardians, learners, and community members to access important information about the school.

3.1 Areas for Improvement.

The proposed website addresses these challenges by providing:

- Clear information about the school.
- Information about academic grades and subjects.
- A gallery showing activities and achievements.

- An enquiry form.
- Contact information
- Goggle Maps locations.
- Easy navigation between website pages.
- A simple and user-friendly interface.

4. Proposed Website Features and Functionality:

The proposed website will contain the following main pages:

Home Page

- The **Home page** welcomes visitors to Tshiawelo Primary School and provides a short introduction to the school. It includes a school video, school image, and a brief message about the school's commitment to education, discipline, and respect.

About Us

- The **About Us** page provides information about the school, its location, mission, vision, and core values.

Academics

- The **Academic page** provides information about the grade offered, from Grade R to Grade 7. It also provides information about subjects offered from Grade 4 to Grade 7 and highlights academics excellence.

Gallery

- The **Gallery page** displays photographs of school activities and achievements, including prize-giving ceremonies, educational trips, school assemblies, awards, and the school team.

Enquiry

The **Enquiry page** allows visitors to submit question or requests. The form collects:

- Full name
- Email address
- Phone number
- Enquiry type

- Message

Contact Us

- The **Contact Us** page provides the school's telephone number, email address, postal address, and physical location. It also includes Google Maps for the school location and the Vhembe Education District location, as well as a contact form.

5. Design and User Experience:

5.1 Colour Scheme:

The website uses a simple school-oriented colour scheme consisting mainly of:

- Navy Blue
- White
- Light/neutral background colours

Navy blue is used for the navigation bar, while white is used for the navigation text.

5.2 Typography:

- The website uses clear and readable text. Headings are emphasised using larger text and formatting such as bold, italic and underlining while normal paragraphs use standard readable text.

5.3 Layout and Design:

The website uses a simple layout that makes information easy to find. Each page contains:

- School logo
- Navigation menu
- Main content
- Footer

The navigation menu provides access to all six main pages.

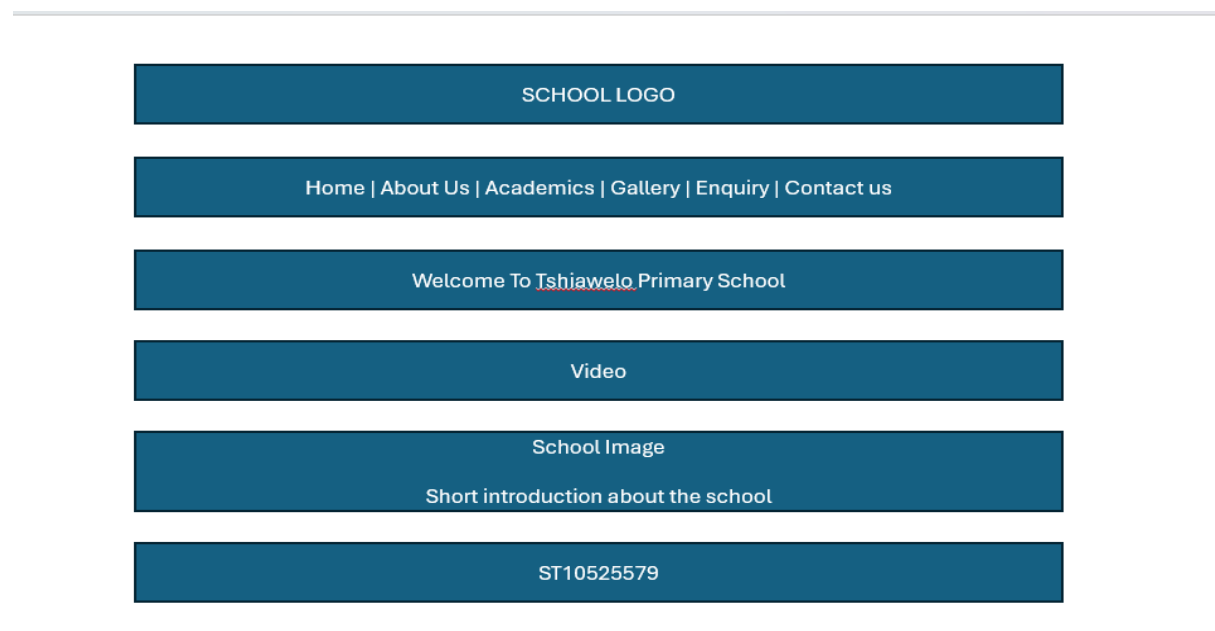

5.4 User experience

The website is designed to provide:

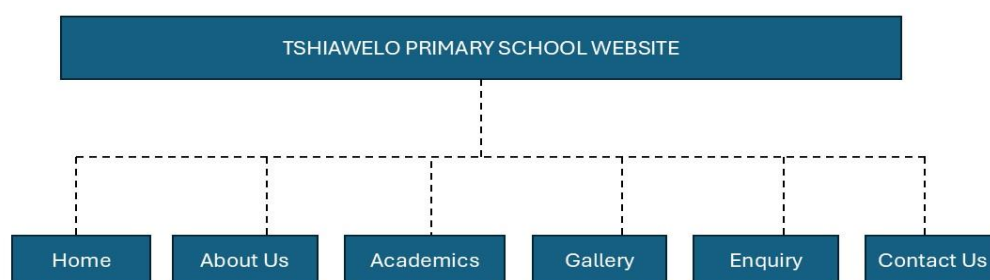

- Clear navigation
- Fast loading pages
- Simple page structure

- Easy access to contact information
- Easy access to enquiries
- Readable content
- Relevant images and videos
- Location information through Google Maps

5.5 Low – Fidelity Wireframe.

5.6 Site Map

6. Technical Requirements:

- HTML
- CSS
- JavaScript
- GitHub for version control
- Web hosting service
- Proposed domain name: www.tshiawelopprimary.co.za

7. Timeline and Milestones:

Week Milestone

Week 1	Project proposal
Week 2	Wireframes and planning
Week 3	HTML development
Week 4	CSS styling
Week 5	JavaScript functionality
Week 6	Testing and improvements
Week 7	Final submission

8. Budget:

Item	Estimated Cost (ZAR)
Domain registration	R250 per year
Web hosting	R1 500 per year
Website design	R8 000

Website development	R15 000
Annual maintenance	R6 000

Estimated Total: R30 750
